Past performance of an investment is not a guide to its future performance. Some investments may not be readily realisable since the market in the securities is illiquid and therefore valuing the investment and identifying the risk to which you are exposed may be difficult to quantify. Futures and options trading is considered risky and past performance of an investment is not a guide to its future performance. Some investments may be subject to sudden and large falls in value and on realisation you may receive back less than you invested or may be required to pay more.

Changes in foreign exchange rates may have an adverse effect on the price, value or income of an investment. Please note that SALIX WEALTH or its employees can at any time buy or sell products mentioned in this publication, including derivatives on such products.
